👤 PROFESSIONAL PROFILE

Frontend Developer with experience building commercial web platforms, administrative dashboards, and interactive catalogs. Specialized in React, Vite, and SCSS Modules. I develop scalable interfaces and integrate authentication, data management, and business functionality.

📁 PROFESSIONAL EXPERIENCE

Freelance Frontend Developer — M&S Negocios e Inversiones

Dec 2025 – Present

- Developed a real estate platform for property browsing and management.
- Implemented a property catalog, filters by price, area, and category, sorting options, and detailed property views.
- Built a secure administrative dashboard with authentication and CRUD operations for properties and categories.
- Integrated database services, authentication, and image storage using Supabase.

Frontend Developer — Estética CG, Team Project — ZondaLogic

Mar 2025 – Present

- Developed a commercial website and administrative dashboard for a beauty and aesthetics center.
- Implemented interfaces and workflows for appointments, clients, staff members, service catalogs, sales, promotions, and settings.
- Built features using React, Redux Toolkit, React Router, SCSS Modules, Material UI, form validation, and testing tools.
- Contributed to SEO, PWA functionality, business workflows, and deployments.
